HEPBS Parameter Specifications

Name: 4-(4-(2-Hydroxyethyl)Piperazin-1-Yl)Butane-1-Sulfonic Acid

CAS No: 161308-36-7

Molecular formula: C₁₀H₂₂N₂O₄S

Molecular weight: 266.36

pKa (25 ° C): 8.3

Applicable PH value range: 7.6-9.0

Melting point/freezing point: 211-216°C

Boiling point: 431.68°C

Appearance: white crystalline powder

Grade: Reagent Grade

Packaging specifications: 500g/bottle, 25kg/barrel (customized packaging)

Validity: Two years

Storage conditions: Store at room temperature in an airtight container in a cool, dry and ventilated place.

Chemical structure:
