

Sodium Citrate
powder

Sodium citrate Parameters & Specifications

Packing specification: 500g/bottle, 25kg/drum

Appearance: white crystalline powder

Properties: easily soluble in water and glycerol, slightly soluble in ethanol, the aqueous solution is alkaline.

CAS number: 6132-04-03

Molecular formula: $C_6H_5Na_3O_7 \cdot 2H_2O$

Molecular weight: 294.10

Validity period: three years

Storage conditions: Sealed at room temperature away from light, stored in a cool and dry place.

Reminder: When it is found that there are impurities or foreign objects in the product package, or it is damp, the color is abnormal, and the expiration date is exceeded, it is recommended not to use it.
